Dear Mr. Fay:

We apologize for the delayed response. Please understand that this email account was created to establish an effective point of contact between the TSA and the General Aviation Associations Leadership. While our office does not have the resources to respond to every inquiry from the myriad of GA association members, we are making every effort to address your questions and concerns as expeditiously as possible.

In regards to your question about Security Directive (SD) 1542-04-08F, your security representative must contact the Airport Security Coordinator (ASC) at your airport for this information. This is an airport-specific requirement and how each airport meets that requirement is up to their ASC. Hence, the regulatory requirement may be met differently at each airport in the nation.

Thank you for your comments!

James C. Elmore Jr.
Principle Security Inspector (General Aviation)
Transportation Sector Network Management (TSNM)
Department of Homeland Security
Transportation Security Administration

Subject: Opposition to SD 1542-04-08F

Dear Mr. Barnes,

I appreciate your considering my opposition to SD 1542-04-08F and its impact on General Aviation activities as presented in the attached letter.

Thank you.

- Collin R. Fay
